Story of Britain	Society and Government	Beliefs	Being a Historian
Mary was born just before Victoria became the queen. Mary Anning was born in Lyme Regis which is one of the best places in the country to find Fossils. Mary Anning started collecting fossils for fun and didn't know how important they were. Some of what she discovered, changed the way scientists understood how life had developed on Earth. Her discoveries were some of the most important discoveries in History. Mary Anning didn't get recognised for her work until long after her death.	Contrast the life of rich Victorians (Florence Nightingale) with poor Victorians (Mary Annings family). Understand that many more people tend to be poor rather than rich, particularly in the past. Poor people were often treated unfairly but couldn't do anything about it.	Because most people were Christians, many didn't believe that Mary Anning's Fossils could be real as they appeared to go against what the bible said about the Earth being created in 7 days. (Many modern Christians don't have a problem with this and don't think that the 7 days is meant to be literal.)	Historians and archaeologists use the things that we find in the ground to help us understand what the past was like. Mary Anning is a significant historical figure because she changed the way people understood the past. Both Mary Anning and Florence Nightingale are significant people, even though they did very different things.

Vocabulary – Mary Anning	
Tier One	
Dinosaurs **Past**	
Tier Two	
Victorian	A person who lived at the same time as Queen Victoria.
Rich	Having a great deal of money or assets
